

Triangles (2)

Name:

Date:

- Use the dots to draw some more triangles. Are they equilateral, isosceles or scalene?

The grid consists of 15 columns and 10 rows of dots. Three triangles are drawn on the top three rows:

- Triangle 1 (Left):** An equilateral triangle with vertices at (1, 2), (2, 3), and (3, 3) in a 0-indexed coordinate system where (0,0) is the top-left dot.
- Triangle 2 (Middle):** A scalene triangle with vertices at (4, 2), (5, 3), and (8, 3).
- Triangle 3 (Right):** An isosceles triangle with vertices at (11, 2), (12, 3), and (13, 3).

The remaining 12 columns and 7 rows of the grid are empty for drawing more triangles.
