

Finding Half of a Set

Name:

Date:

$$\frac{1}{2} = \text{one half}$$

- Use cubes or other apparatus to find $\frac{1}{2}$ of the following numbers. To find $\frac{1}{2}$, you need to share your apparatus into 2 equal groups.

1. $\frac{1}{2}$ of 16 =	9. $\frac{1}{2}$ of 12 =
2. $\frac{1}{2}$ of 26 =	10. $\frac{1}{2}$ of 6 =
3. $\frac{1}{2}$ of 32 =	11. $\frac{1}{2}$ of 22 =
4. $\frac{1}{2}$ of 10 =	12. $\frac{1}{2}$ of 28 =
5. $\frac{1}{2}$ of 18 =	13. $\frac{1}{2}$ of 2 =
6. $\frac{1}{2}$ of 24 =	14. $\frac{1}{2}$ of 30 =
7. $\frac{1}{2}$ of 4 =	15. $\frac{1}{2}$ of 20 =
8. $\frac{1}{2}$ of 14 =	16. $\frac{1}{2}$ of 8 =

Remember - if it isn't fair, it isn't half!

LO: To show my understanding of 'half' by finding half of a set.
